### Skidmore College Policy on Political Activity

#### Preface

Skidmore College is deeply committed to the values of academic freedom and encourages robust discourse reflecting a broad range of ideas, perspectives, and opinions; the College also is deeply committed to educating our students about informed, responsible citizenship and to reflecting that commitment broadly throughout the campus community.

At the same time, as a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code, Skidmore College is prohibited from directly or indirectly participating or intervening in any political campaign on behalf of or in opposition to any candidate for elective public office. This prohibition applies to all campaigns, including campaigns at the federal, state, and local level. Violations of this prohibit -exempt status.

The prohibition on political campaign activity applies only to the College (the tax-exempt charitable organization), not to the activities of individuals in their private capacity. The prohibition on political activity is not intended to restrict free expression on political matters by leaders or officials of the College as individuals. Similarly, the prohibition on political campaign activity does not prohibit the College from having contact of any kind with individuals who are candidates for public office. This prohibition and other laws (for example, laws that regulate lobbying activity intended to influence proposed legislation), however, do impose certain limitations on expressions of political opinion by the

The purpose of this policy is to articulate how the College balances those sometimes-competing values. This policy addresses political activity of the College, not the political activity of individuals. Nothing in this policy is intended to restrict individual freedom of speech or the robust exchange of

#### Definitions

For purposes of this policy:

candidates for political office or that offer balanced, neutral, or impartial viewpoints and perspectives on issues of public concern.

or that support or oppose a position on an issue for the purpose of assisting or opposing a political candidate.

#### Part One: Nonpartisan Political Activity

1. The appropriate role of the College with respect to political activity, consistent with the law and the

citizenship, is to serve as a neutral and fair forum for all candidates. The following nonpartisan activities are permitted, provided they are carried out in a nonpartisan, unbiased manner:

- a. Speakers who are addressing matters of public concern in the context of an educational lecture or presentation, even if the speaker holds or is a candidate for a political office.
  - b. Updates or issue talks by current holders of political office.
  - c. Debates between or among candidates for political office.
  - d. Impartial voter registration drives.
  - e. Events and educational efforts encouraging students to vote either locally or in their hometowns.
2. College space and facilities may be used for such nonpartisan activities on an impartial basis consistent with any otherwise applicable College policies and procedures.
  3. Nonpartisan lectures, debates, and other events may be supported by funding from sources external to the College, provided that preference for seating at such events will be given to Skidmore students and other members of the Skidmore community.

## **Part Two: Partisan Political Activity**

Skidmore College is prohibited from participating or intervening in any political campaign on behalf of or in opposition to any candidate for public office. Therefore, individuals associated with the College must observe the following requirements with respect to participation in national, state, or local partisan political activities:

1. When participating in partisan political activity as an individual, individuals connected with the College must make it clear that their views are their own and do not represent the College. A statement indicating that views on political candidates or issues are those of the individual, and not the College, is especially important when a speaker identifies himself or herself, biographically, as an employee of the College.

**Special note for faculty:** The following language in Part One of the *Faculty Handbook* is particularly relevant for members of the faculty:

Skidmore College vigorously endorses the principle of academic freedom. . . .

Faculty are members of the community, members of learned professions, and professional representatives of an educational institution. When they speak as members of the community, they should be free from institutional censorship or discipline, but their special position in the community imposes obligations. As persons of learning and as educational officers, they should remember that the public may judge their profession and the College by their utterances. Hence they should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and should make every effort to indicate that they are not institutional spokespersons. The College recognizes the right and the responsibility of faculty members to speak as members of the community on issues of public concern.

### **Institutional Policy and Planning Committee (IPPC) Operating Code<sup>1</sup>**

**Function:** The IPPC advises the President with regard to strategic planning, taking a comprehensive view of significant issues affecting the College. In so doing, it serves as the central deliberative body for all-college governance. More specifically, IPPC advises the President on all policy areas, with primary responsibility for those areas beyond the purview of faculty governance (such as budget and financial planning, benefits, environmental issues, admissions and financial aid, student affairs, and advancement).

The President chairs the IPPC; an elected member of the faculty serves as Vice-Chair. The agenda of the Committee is set by these two individuals.

The IPPC may appoint subcommittees to serve as resources for the committee with regard to any area of policy or planning as needed. The composition of such subcommittees is determined by IPPC in consultation with FEC and with other groups or individuals as appropriate.

The Chair of the FEC and the faculty Vice-Chair of the IPPC shall meet regularly throughout the

Agendas and supporting documents will be distributed by email prior to each meeting, with lead time sufficient to permit committee members to review these documents carefully.

#### Minutes

Minutes of IPPC meetings will be recorded by the Executive Director of the Office of the

management, community, diversity and equity, and communication and assessment. This includes assisting in the coordination of sustainability strategic planning and its assessment and updates. The subcommittee may create working groups to assist with this process. Secondly, to coordinate strategic event planning and collaborative efforts between departments around these topics.
